MAKE SPACE FOR GIRLS

Parks, play equipment and public spaces for older children and teenagers are currently designed for the default male. It's time to make space for girls.

The KOMPAN Play Institute has observed that girls tend to prefer motor skills refinement and flexibility activities to strength and muscle training. We observed that when the girls play, little informal competitions occur for fun. This playful rivalry speeds up the pace of play and heartbeat rates.

Our site offers many exciting features to encourage girls as well as boys go outside and get active:

- LOTS OF SOCIAL SEATING TO HANG OUT IN, SWAY AND CHAT
- LOTS OF HIGH-UP PLACES TO SIT - TO SEE AND BE SEEN
- ZONED MUGA CREATES MULTIPLE OPPORTUNITIES FOR SIMULTANEOUS USE BY DIFFERENT GROUPS
- HILLTOP PERFORMER UNIT OFFERS A SOCIAL SPACE TO EXERCISE AND CHAT AT THE SAME TIME
